Pharmaceutical and Aviation industries

Unifret International Group provides specialized transportation and distribution of *pharmaceutical and aviation industries* in bound and out bound. We offer transports for those kind of commodities at temperatures between minus 25°C to plus 25°C.

- Medicines
- Vaccines
- Bio pharmaceuticals
- Sensitive pharmaceutical products
- Clinical trials
- Aviation Industry Parts

Our team of skilled associates will keep you informed about your shipment through the entire transportation process. All our staff is trained in handling pharmaceuticals and temperature controlled cargo delivery together with dangerous goods.

All products are accompanied by a special thermometer that records throughout the transport the temperature every single minute.

Cool chain & Supply chain

We help to manage your **cool chain** and offers solutions for managing your **supply chain**.

- Conduct regular, periodic training of personnel
- Confirm the shipment and document is compliant with carrier/country regulations and procedures
- Respect the flight schedule, ensure space onboard is available
- Communicate delays or problems
- Update any temperature monitor log sheets
- Store the product in conditions that are within a defined temperature range
- Limit the time between the warehouse and aircrafts loading/unloading
- Handle active cooling containers in accordance with the supplier's instructions
- Transport the product from origin to destination airport
- Maintain recommended cargo hold temperature setting
- Refrain from loading temperature sensitive freight near the aircraft cargo door when possible
- Store the container at the airport in areas within the specified handling temperature limits.
- Mandatory temperature and dry-ice acceptance check;
- Exact temperatures between -20°C and $+20^{\circ}\text{C}$, according to your specifications;
- Dedicated storage area for transit
- Dedicated handling and monitoring.

SEA FREIGHT

We ship all over

Professionalism, seriousness and competence characterize our services.

The services of our seafreight activities:

- FCL/LCL shipments with regular departures from all Italian and European ports.
- Highly qualified and professional agents permit us to operate both in import and export in real time thanks to the latest IT technologies.
- EDI-Track connecting systems enabling us to constantly monitorize the shipments entrusted to our care.
- Handling of shipments and customs clearance services, with fast procedures and deliveries to the Italian and foreign ports.
- Integrated logistic systems.

AIR FREIGHT

We fly all over

Thanks to our highly qualified staff, we follow the shipments which go to or from the overseas countries and to the Middle and Far East countries.

Our services foresee:

- Daily shipments to Middle and Far East countries
- Regular shipments to USA, Canada, South America, South Africa, Egypt, Israel, Lebanon and Turkey
- Specialists in transport of pharmaceutical products with controlled temperature required
- Qualified consultancy in insurance matters
- Customs clearances on export and import shipments and related pick up and deliveries of shipments
- Shipments of dangerous goods
- Preparation of Letters of Credit
- C.O.D. Collections
- At next load please give us a call : we shall take-off together

ROAD

All our offices, in particular Campi Bisenzio (Florence) and Rivoli (Turin) do offer besides the sea and air freight services the groupage and full trucking services and also express and dedicated services.

Our offices in Turin and Milan are specialized in the transportation of pharmaceutical products needing regulated temperatures and also specialized in the handling of spare parts for the space and aeronautical industries.

Other services:

- Qualified assistance in the handling of customs clearance connected problems.
- Consultancy in insurance matters.
- Solving of problems connected with customs clearance and import problems in the destination countries of the shipments.
- COD collections.

LOGISTIC

We are able to range from the simple warehousing of the goods to the printing of the invoices, the labeling of the goods, picking and packing and distribution on the national and international destinations availing ourselves of a complete range of transportation services.

CUSTOM CLEARANCE

We avail ourselves of a dedicated network of customs brokers at all Italian ports and internal terminals, through whom we carry out all procedures connected with professional import and export customs clearances solving all problems related to goods requiring special treatment.

PROJECT CARGO

Our Project Division is especially created to deal with specific requests, carefully analyzing every single case and finding “ad hoc” solutions for over size or over weight loads, break bulk or aircraft charters.
